

Clarence Valley Community Halls Strategy

**Help shape the future
of Council's network
of community halls**

Community halls are places of important social connection. They provide opportunities for locals to interact with each other, participate in activities and come together in times of need.

Clarence Valley Council is inviting you to tell us about your community hall. We want to know what works, what can be improved and what's special about your hall.

Your feedback will help us to shape a 10-year strategy that can increase the importance and relevance of halls to the community.

The Clarence Valley Community Halls Strategy is expected to be exhibited in late 2025 and finalised and adopted by Council by Mid-2026.

Keep up to date with the project at Clarence Conversations.

Complete the online survey about your hall.

Scan the QR code below to get started:

Survey will be open until 3 October 2025
